**Re: Joint Application of Duke Energy Carolinas, LLC and Duke Energy Progress, LLC to Establish Green Source Advantage Programs and Riders GSA  
Docket No. 2018-320-E**

Dear Ms. Boyd:

Duke Energy Carolinas, LLC's and Duke Energy Progress, LLC's (collectively, the "Companies") are providing herein a response to the comments of the Office of Regulatory Staff ("ORS") filed in the above-referenced docket on November 23, 2020. The ORS does not object to Commission approval of the Green Source Advantage Programs, but recommends minor modifications to the Companies' Rider GSA tariffs. As ORS indicated in its comments, the Companies are agreeable to ORS's proposed modifications. However, as the Companies have recently discussed with ORS, two ministerial corrections are necessary to achieve the intent of the ORS modifications.

First, in making the tariffs "company-specific," the ORS modifications inadvertently refer to the Program Capacity as 200 MW for each utility, whereas the proposed Program Capacity is 200 MW for DEC and DEP combined. Also, the addition of footnote on page 2 should refer to "GSA Program Capacity" instead of "Maximum GSA Program Capacity." This defined term was revised by the ORS modifications and should continue into footnote 2.

The Companies have discussed these ministerial corrections with ORS, and ORS agrees with these corrections. The Companies will file revised Rider GSA tariffs, consistent with these changes, upon Commission approval of the Green Source Advantage Programs, as amended in the Companies' October 23, 2020, filing.

Hon. Jocelyn G. Boyd

Sincerely,

Rebecca J. Dulin
